PROFILE

I am a goal-oriented and responsible person taking my first steps in programming. I have experience working with HTML and CSS, as well as basic knowledge of Python, C/C++, and Java.
I am characterized by analytical thinking, quick adaptability to new technologies, and the ability to work effectively both independently and in a team. Always eager to improve my skills and highly motivated to grow in the field of software development.

SKILLS

- Version Control
- Frontend
- UI/UX Principles
- Soft Skills
- Staff and User Training
- Process Improvement

WORK EXPERIENCE

Personal Portfolio Website

Oct2025- present

- Designed and developed a personal web portfolio to showcase projects and skills.
- Focused on responsive design, accessibility, and clean code architecture.

Website for a Private Client
Jun2025- Sep 2025

- Updated and improved an existing website for a small brokerage business based on a Figma design.
- Translated the Figma layout into functional HTML/CSS code, optimized performance, and enhanced user experience.
- Implemented responsive design and modernized site elements while maintaining the original design intent.
